SCENE FROM MINSTREL PERFORMANCE

SYLVANITE HAS A NEW DISCOVERY

PROPERTY TWO MILES FROM CAMP

ASSAYS GIVE RETURNS OF NEARLY SIX OUNCES OF GOLD AND SOME SILVER

(Special Bonanza Correspondence)

SYLVANITE, June 18. — Charley Grant and Andy Petrovich, who are associated with Geo. Banovich, have made a discovery of mineral which promises to put them on easy street if the values found at surface hold out to any considerable depth.

They made two locations May 11th but kept the find quiet and about a week ago began prospecting the ground, which is situated about two miles northwest of Sylvanite camp and four miles due east of Rye Patch pump station, from which point a good road suitable for autos or wagons leads directly to the discovery. Three holes about 3 to 4 feet in depth have been sunk at different points and ore samples sent into Tonopah returned values of \$126. Nearly six ounces of the values were in gold and the balance in silver.

The vein as far as exposed is found in an andesite and porphyry and the vein material appears to be about 3 feet in width. In appearance the ore is of a bluish, fine grained quartz, heavily impregnated with iron sulphide and does not yield readily to ordinary panning. The ore occurs in bunches and kidneys and it cannot be stated positively at the present time whether or not the ore is in place. Some development will be required to ascertain that fact. Jack Williamson, a well known Tonopah prospector, was the first to get in on this latest discovery and secured two claims paralleling the find of the pioneer prospector. He is also interested with Jack Humphrey and Al Wardle in a claim on the east extension of the original strike and who have three other claims close in. Humphrey and Al Prevett own two claims on the west extension of Grant & Petrovich which were located June 4th. Al Haag and W. H. Shepherd were among the early ones and secured some ground that carries the same good looking float. Sylvanite and Volcano are temporarily depopulated today in order to get in while the getting is good so far as claims are concerned. This latest find goes far to indicate that there is considerable of a mineral belt running north and west of Volcano and Sylvanite that is worthy of the attention of the miner and prospector and the possibilities in the way of many new and prosperous mining camps in old Nye county are far from being exhausted.

SENATOR PITTMAN TO ESCORT COMMITTEE

United States Senator Key Pittman came to Reno last night from Tonopah, where he has been for several weeks. In company with Governor Emmett Boyle, he met the congressional committee on appropriations this morning and continued with them on the special train to Carson City and Gardnerville, says the Journal.

In company with the governor, Senator Pittman will escort the committee on its trip through the Carson valley and in Churchill county over the Truckee project.

MONEY PAID UNDER PROTEST TIED UP

ONE CAUSE FOR STATE NEEDING COIN

ONE HUNDRED AND FIFTY THOUSAND DOLLARS THAT CAN'T BE SPENT

No wonder the state officials are beginning to cry "hard times," and look to see where they can retrench here and there, if other counties in the state are in the same condition as Elko county, says the Free Press. When Governor Boyle came to town he was shown the records of the treasurer's office and when he found that there was \$149,193.41 tied up in the Elko bank by the protesting taxpayers he began to figure how some of this money could be put into circulation.

In 1913 enough owners protested their taxes to amount to \$17,597.80; on the first installment for 1914 the protested taxes amounted to \$71,620.97; and the second installment just closed, the moneys paid in under protest totaled up to \$59,974.64, making a grand total of nearly \$150,000. And to make matters worse the laws of the state are so obscure that the tax collector does not know how long he must keep this money and when or how he is to pay it out or apportion it. It may be possible that the matter will be taken to the supreme court on a test case in order to get a decision and unless there is some way of releasing it the funds will keep on piling up in the banks until all the money in the county will be in the protest fund.

FILE ARTICLES

Articles of incorporation were filed in the secretary of state's office on Thursday by H. A. Riddell, C. M. Miller and John Smith, all of Denver, Colo., incorporating the Desert Chief Mining company of Goldfield, Nev., and appointing E. A. Byler of that city resident agent. Amended articles of the Churchill Creamery company, Inc., increasing the capital stock from \$100,000 to \$150,000, were also filed for record.—Appeal.

AMUSEMENTS

BUTLER THEATER

Tonight's bill at the Butler will consist of a program far from the ordinary run of pictures—probably the greatest series of animated photographs ever taken and known as Salisbury's "Wild Life" motion pictures will be the feature. Aside from their truthful educational value, the romance of life in the open and the call of the wild will appeal to children as well as the grown-ups. These pictures are dissimilar to any ever taken. Among the most thrilling scenes may be mentioned the capture of a ferocious mountain lion alive; the treeing and roping of a full-grown lynx and a sensational goose-hunt during which some 800 birds were killed. It is given to few people to witness the capture of bear, lynx and mountain lion without a shot being fired, but many such scenes are seen in these pictures, all of which were taken in the Pacific coast country from Alaska to the Mexican border. Turner & Dankin of the Tivoli theater, San Francisco, say: "Imagine an Indian who would climb a tree and pull a lion out by the tail. It sounds unbelievable, doesn't it, but you see it all in Salisbury's Wild Life pictures. These pictures make the blood tingle. When we say that these are the greatest pictures ever produced, we speak sincerely." They are the only pictures ever played a return engagement at the Tivoli theater at the request of the public. "Everyone should see them," says the California fish and game commission.

On Monday, an Alaska picture in five parts, and second only to "The Spoilers," featuring the powerful dramatic star, Edmund Brees, in "The Shooting of Dan McGrew," from the poem classic of the same name by Robert W. Service.—Adv.

PASTIME THEATER

The Favorite Players company presents at the Pastime today Carlyle Blackwell in "The High Hand," from the novel by Jacques Futelle. The story deals with the trials and tribulations of Jim Warren, a steel worker, whose ambition was to mount the ladder and hold a position of eminence in the world. His "big idea" was to secure an established political position and then play the game for honest purposes with marked cards as others used them for dishonest ends. He was elected to the legislature in the face of strong opposition and finally found himself in the gubernatorial chair, marrying the daughter of his late opponent for the governorship. The picture is well staged and the scenes are good.

Tomorrow Wilton Lackaye in "The Children of the Ghetto," and the Paramount Travel Pictures. "The Children of the Ghetto" is a gripping heart interest story that will appeal to every American young and old. In this wonderful production Wilton Lackaye is cast in the principal part, that of "Reb Shemuel," a character that will live as long as literature or the drama exist. It is one of the famous Fox productions, which means that it is a topnotcher.—Adv.

AIRDOME

Tomorrow the Airdome will re-open with moving pictures again, the program consisting of five reels of high-class Mutual films. Charles Chaplin
